Section	Field	Description
steps	question	<ul style="list-style-type: none"> the question that corresponds to a step in the mhGAP Intervention Guide can be null if there is no question for this step
steps	tips	<ul style="list-style-type: none"> an array of tips that corresponds to a step in the mhGAP Intervention Guide can be null if there are no tips for this step
steps	yesButton	<ul style="list-style-type: none"> true if the question should have a button that allows the user to answer “yes” false if this button should not appear on the page
steps	noButton	<ul style="list-style-type: none"> true if the question should have a button that allows the user to answer “no” false if this button should not appear on the page
steps	nextSubmit	<ul style="list-style-type: none"> true if the question should have a button that allows the user to submit the data collected false if this button should not appear this indicates the end of a branch in the flowchart if nextSubmit is true, yesButton and noButton should be false
steps	nextProtocol	<ul style="list-style-type: none"> the name of a protocol to send the user to should be the name of a protocol that exists in the JSON this indicates the end of a branch in the flowchart false if this is not the end of a branch in the flowchart or if it is the end of the branch in the flowchart but there is no corresponding protocol if not false, a “Go to Protocol” button will appear if nextProtocol is not false, nextSubmit should be true
steps	nextTrue	<ul style="list-style-type: none"> the name of a step to send the user to if they select “yes” to this step should be the name of a step that exists in the JSON can be null if there is no “yes” option for this step if nextTrue is not null, yesButton should be true
steps	nextFalse	<ul style="list-style-type: none"> the name of a step to send the user to if they select “no” to this step should be the name of a step that exists in the JSON can be null if there is no “no” option for this step if nextFalse is not null, noButton should be true

steps	editable	<ul style="list-style-type: none"> • true if an admin user of this app should be able to add or remove video from this step • “edit” button only appears on page if true
protocols	name	<ul style="list-style-type: none"> • the name that corresponds to a protocol in the mhGAP Intervention Guide
protocols	steps	<ul style="list-style-type: none"> • an array of steps that correspond to the protocol instructions in the mhGAP Intervention Guide
protocols.steps	title	<ul style="list-style-type: none"> • the title of an instruction for a protocol in the mhGAP Intervention Guide • can be null if there is no title, although I believe no protocols have tips with no title
protocols.steps	tips	<ul style="list-style-type: none"> • an array of tips that corresponds to an instruction for a protocol in the mhGAP Intervention Guide • can be null if there are no tips for this instruction
